“ONE STEP AT A TIME WILL LEAD TO SUCCESS”

- Always utilize time in a fruitful manner.
- Do not put off for tomorrow what you can accomplish today.
- Failure is not a hurdle, it is the step beyond which lies success.
- Introspect, Improvise and Improve.
- Try to be a keen observer and listen carefully to all that is worth listening.
- When your head, heart and hands work in conformity, success follows.
- Learn from your mistakes, never ignore them.
- Take criticism positively and accept praise with humility.
- Whatever may be the situation, do not forget honesty and truth.
- Being grateful, honest and hard working sets a successful person apart from the rest.

Few More Tips To Be A Scholar

- Do prepare a subject-wise time table.
- Stick to the schedule.
- Take a break after every two hours.
- Drink plenty of water or take sufficient fluid in between.
- Go through the whole text and do not forget to underline important points.
- Study with concentration and try to avoid distractive thoughts.
- Either switch off your mobile phones or put them on SILENT mode while studying.
- Learn the effective ways of reading, i.e., skimming and scanning.
- Self-study is incomplete without notes. Prepare your notes while revising the topic taught by your teachers.
- Pay more attention towards the subject you feel you need to put in extra efforts. While studying, take that subject first. Once you have finished that, the rest of the work will be easier.
- Revise weekly or fortnightly.
- Never leave the difficulties unsolved. Always ask your teachers or wise companions whenever you have any doubt.
- While writing answers in the examination, attempt all the questions and make sure you complete the entire paper in time. Attempt the sub-parts of each section together. Never forget to underline whatever you want to bring to the examiner's notice.
